## **Interview of Brunold Oja – Monitoring Engineer of LEVIRA - Estonian Broadcasting Company**

LEVIRA Ltd was established in 1997 by the Estonian government. Since 2000 Levira has had two shareholders: the Estonian government, with a majority stake of 51%, and French telecom and broadcasting company Télédiffusion de France (TDF) with 49%.

### **What products did you purchase from Audemat-Aztec?**

We purchased 10 GOLDENEAGLE DVB and a BROADCAST MANAGER.

### **Where did you install the GOLDENEAGLES?**

We installed the units nationwide in the major cities of Estonia such as Tallium, Koeru, Parenn. Orissaare, K-Nomme.

### **Where did you install the Broadcast manager?**

The Broadcast manager is installed in a central location in Tallium.

### **How long have you been using it?**

We have been using the complete solution for 9 months.

### **What kind of problem did this product solve for you?**

From one central location I can get all the information from every site on one screen. All the locations monitored are displayed on a map. The sites are in green if everything is fine or red if something goes wrong. It is very visual and I can check all the parameters in real-time. I don't have to check all the units one by one. All the information is centralized in the Broadcast Manager.

### **What are the features you like most?**

For me the Broadcast Manager is the best feature. I also like very much the emailing of the alarms that I receive in real time.

### **What made you choose Audemat-Aztec?**

I have known Audemat for 7 years through the Goldeneagle FM and Goldeneagle Analog TV. My experience was good so I first checked with Audemat to see what they had to available for DVB Monitoring. It was also the first device available for DVB monitoring.

### **About Audemat-Aztec:**

Audemat-Aztec (<http://www.audemat-aztec.com>) is a world-wide pioneer in the development and manufacturing of innovative high technology equipment for TV and radio broadcasting.

Head Office: Parc d'activités Kennedy - 20, avenue Neil Armstrong – F-33700 Bordeaux-Merignac (France)  
Tel +33 (0)5 57 928 928 – Fax +33 (0)5 57 928 929 – [contact@audemat.com](mailto:contact@audemat.com) - [www.audemat.com](http://www.audemat.com)  
US Office: 19595 NE 10<sup>th</sup> Av – Suite A – Miami, FL 33179 (USA)
