Show in Charlotte**

*Moody Broadcasting Network to acquire
the 500th HD monitor*

Miami, Florida - Thursday, September
20, 2007 - Audemat-Aztec

(<http://www.audemat-aztec.com>) an-

nounced today for the start of the NAB Radio Show that they have sold their 500th monitoring unit for HD. Mark Williames, Director of Engineering for Moody Broadcasting Network acquired his GOLDENEAGLE HD unit for WMBI Chicago's Christian Radio.

"Audemat-Aztec's GOLDENEAGLE HD is far and away the # 1 choice of HD Broadcasters for monitoring one station or many" States Christophe Poulain, VP Business development for Audemat-Aztec Inc. "Broadcasters trust the GOLDENEAGLE HD because it is a true Broadcast monitor; it accurately and continuously monitors all of the key analog and digital parameters on multiple stations." Adds Poulain. The GOLDENEAGLE HD is the only unit on the market that combines innovative features such as: time alignment monitoring, audio streaming, spectrum analyzer and digital demodulator, NRSC mask monitoring and a smart modulation monitor.
